Reno, NV 89519

Dear Missy:

Just a quick note to let you know how invaluable your services were to us during our recent remodel. The layout you designed for our downstairs is so functional and so beautiful. Your knowledge from your many years in the contracting business was priceless and so useful in the many changes that came our way. Even my contractor said you were a dream to work with!

I get so many compliments on the room you took from a plain laundry room to an exquisite guest bath. The room layout was almost impossible to make work, but you did it just right. I especially appreciate your willingness and ability to get the same look I wanted using less expensive material. You really are a great designer.

You will be my first call when I need a designer in the future.

Thanks again,

Lynda Hascheff
